

Distech Controls to Exhibit at BuildTech Asia

[Brossard, Québec, Canada, March 4, 2025] – Distech Controls™ Inc., an innovative leader in intelligent buildings, will feature its cutting-edge, AI-powered Resense™ Move sensor alongside a suite of software solutions at BuildTech Asia 2025, 18–20 March 2025, Singapore EXPO.

BuildTech Asia 2025 is Asia's leading trade event for the construction and built environment ecosystem. Under the refreshed theme "Building Tomorrow: Innovate. Sustain. Transform", the event brings together the industry's brightest minds, groundbreaking innovations, and transformative solutions.

"We are delighted to be showcasing our latest innovations at BuildTech Asia 2025, including the new Resense Move sensor," comments Danny Lee, Vice-President of Sales, Asia-Pacific at Distech Controls. "This event is a great opportunity to connect with industry leaders, explore new opportunities, and showcase how Distech Controls' technologies create smarter, safer, and greener spaces. We're looking forward to welcoming everyone to the stand and sharing our vision for the future of the built environment."

Visitors to **Stand D13** will see Distech Controls' innovative BMS software suite, as well as the Resense Move sensor in-action. They will also learn about Distech Controls four new distinct product categories, and the Atrius brand of cloud applications and common data platform.

Product Solutions on Display at BuildTech Asia

- **Resense Move**, a cutting-edge 7-in-1 sensor, includes AI-powered people counting solution designed to enhance indoor environmental quality, improve energy efficiency, and decrease operating costs. With additional sensing capabilities, it offers a comprehensive approach to creating healthier, more efficient buildings.
- **Eclipse™ Facilities**, the [AHR Expo Innovation Award-Winning](#) Building Automation OS & Software, is embedded directly within Distech Controls' Eclipse-connected controllers to control, connect and monitor a variety of equipment types within buildings
- **Atrius® Facilities**, a cloud-based BMS software solution designed to enhance building operations and reduce energy usage. The Organize module allows system integrators to remotely set up, maintain, and access Eclipse controllers using either the mobile application or web browser interface.
